EXPERIENCE

Technical Director

DELTA MULTIMEDIA FRANCE DMMF/D2MF

01/2024 - Present France

Delta Multi Media France – A France-based telecommunication company working on innovative digital and blockchain solutions.

- Built MLRCoin, a Solana-based Web3 application.
- Developed Civica, a cross-platform app using Flutter.
- Created MyLittleRiverCard, a Node.js game-based application.
- Contributed to VoiceVIP, a next-generation telecom product.
- Led a small development team and delivered projects from scratch.

Senior Python Developer

Nicheby

05/2023 - 04/2024 Delhi, India

Nicheby A precision hiring intelligence platform leveraging AI and expert evaluations to deliver transparent, unbiased talent assessments.

- Delivered projects using Django, Celery, AWS, Redis, Docker, and MySQL.
- Led development of an AI-powered interview preparation chatbot.
- Built a real-time chat system to enhance user engagement.
- Optimized scalable backend services for high-performance hiring workflows.
- Collaborated with cross-functional teams to ensure secure and efficient deployments.

Backend Developer

Freelance

04/2023 - 07/2023 Remote

Company Description

- Developed robust APIs and backend infrastructure for Alshifa Hospital's digital platform.
- Engineered scalable features for a social media application and a job portal.
- Collaborated with cross-functional teams to gather requirements and deliver high-quality solutions on time.

Full Stack Developer

Brototype

03/2021 - 2022 Kozhikode India

Company Description

- Built full-stack projects using Django, React, HTML, and CSS.
- Contributed to both an e-commerce platform and a social media application.
- Developed an e-commerce site with React and Django REST Framework, featuring JWT authentication, cart and order management, product reviews, and payment integration with RazorPay and PayPal.

STRENGTHS

Problem Solver

I'm very practical about solving unexpected issues.

Adaptable

I can adapt to change and new situations.

Clever

I can learn anything and use my knowledge about it !

KEY ACHIEVEMENTS

My family

and how they keep me grounded, every day

Courage I had

to stop and turn round a failing multi-million dollar project

Revolutionising code releases across the enterprise

INDUSTRY EXPERTISE

Python, typescript, JS, Development

Cloud & DevOps(AWS, Docker, Kubernetes, CI/CD Pipelines)

Web Development(Django, Flask, React, Next.js)

Blockchain & Web3Solana, (Smart Contracts, Wallet Integration)
